

## RATIONEL WINDOWSDESIGNER™ MAKES IT EASY TO CHOOSE AND ORDER!

You will find Rationel WindowsDesigner™ on Rationel's homepage [www.rationel.ie](http://www.rationel.ie). The programme is simple: You can try different types of windows and doors and choose the ones that suit your home best. Then you choose the Rationel Showroom through which you want the quotation. The enquiry will be sent directly from the site and within a few minutes you will get an e-mail confirming that the enquiry has been sent. Within 3-4 working days your quotation will be ready at the chosen Rationel Showroom.

That is our way of making it easy for you to choose new windows and doors and get a non-binding quotation.

## RATIONEL – WINDOWS WITH VISION

Throughout the process of design, development and production of our windows and doors we take our responsibility seriously. Rationel has one word in mind "vision" as we look towards the future.

Customers across Northern Europe are benefiting from our high quality windows and doors. Rationel only use the best coniferous timber available from sustainable forests.

Our products are developed to give you light, comfortable indoor climate and superb functionality. Continuous improvements give you the peace of mind that Rationel windows and doors provide design and performance to meet demands from the market now and long into the future.

It is important that you feel confident when you choose Rationel, which is why we always aim to live up to our values. Our products are customer focused and well thought through. We are committed to your project, trustworthy and will aim to keep our promises. All together we call it - windows with vision.

If you have a project, no matter how big or small, contact us. We can help you with our expertise and the many opportunities that our product range offers. For further information you can also visit our web-site [www.rationel.ie](http://www.rationel.ie)

We look forward to welcome you to Rationel.

## BE SURE BEFORE YOU BUY YOUR NEW WINDOWS

To see your home with new windows and doors requires a bit of imagination. Rationel wants to help your imagination along and to make your Rationel choice safe and secure with Rationel WindowsDesigner™. You do not have to imagine what your home would look like with different types of windows anymore. In just a few minutes you can put new windows and doors on your home and try different solutions. This gives you peace of mind when choosing new windows.

## RATIONEL WINDOWSDESIGNER™ – AN ONLINE TEST ROOM

With Rationel WindowsDesigner™ you can try windows and doors online just like you can try on clothes in a fitting room. You can upload photos of your own home, you can save, amend and print an unlimited number of examples with different types of windows and doors that you have put in yourself. Furthermore, you can see the windows in different colours. This way you get a very realistic impression of what types of windows and doors would suit your home.

## HOW TO USE RATIONEL WINDOWSDESIGNER™

Go to Rationel's homepage [www.rationel.ie](http://www.rationel.ie). Choose the link to Rationel WindowsDesigner™ and you are ready to get started.

### 1. Free access

When entering Rationel WindowsDesigner™ there is free access to trying different types of windows and doors on your home. There will be a test photo available the first time you enter Rationel WindowsDesigner™. You do not need to register to try out the programme.

### 2. Upload your photos

The first step is to upload your own digital photos. To get the best result, the photos should be taken as straight on the house as possible. The photos must be saved on your computer in order to upload them to the system. You can upload maximum 6 photos of your house. Now you are ready to put new windows and doors on you home. Only your imagination sets the limits.

### 3. How to use Rationel WindowsDesigner™

Choose photo, windows and doors

You choose the photo that you want to work with and you can easily switch between the uploaded photos. You can choose between window and door types in the list at the top left corner. It is easy to switch between the different types and try out different designs on the same photo.

### Placing and adjusting the windows and doors on the photo

When you have chosen a window or door you can make it active with the marking tool. Four steering tools will then appear - one in each corner of the window. With these tools you can make the window bigger or smaller and adjust the profile to make it fit the window on the photo.

### Change the colour on the windows and doors

With one click you can change the colour on the chosen windows and doors. You can choose between the Rationel standard colours.

### 4. Save your examples

When you have placed all the windows and doors on your home you can save the example. Before saving the example you have to register with name and e-mail address. Shortly after you will receive a username and password in your mailbox. Put in your username and password next time you enter Rationel WindowsDesigner™ and you can get access to your saved examples and make changes to them, if needed.

### 5. Send an enquiry

Use your examples to send an enquiry to Rationel. You can easily choose more examples for the same enquiry, as long as they are not based on the same photo.

Before you send an enquiry you have to fill in the measurements for the windows and doors and you will have to specify them further - a guide will take you through the steps. You will also be able to write comments to each window or door and there are links to further information, if needed. Next step is entering your address.

### Find showroom and send your enquiry

Now you are ready to send your enquiry. Before doing so you have to choose the showroom that you want the quotation through. Within 3-4 working days you will receive the quotation by post, e-mail or collect it yourself at the Rationel Showroom. It cannot be easier and you will know what you are buying as you have seen it online on your own home.
